FOREWORD

In collaboration with the U.S. Environmental Protection Agency's (EPA's) Office of Environmental Information, the Technology Transfer and Support Division of the EPA Office of Research and Development's (ORD's) National Risk Management Research Laboratory initiated the development of this handbook. The purpose of the handbook is to help interested communities learn more about the Monitoring Your Sound (MYSound) EMPACT project and provide these communities with information to help them conduct similar projects. ORD, working with the MYSound project team, produced this handbook to maximize EMPACT's investment in the project and minimize the resources needed to implement similar projects in other communities.

You can order both print and CD-ROM versions of this handbook online at ORD's Technology Transfer Web site at http://www.epa.gov/ttbnrmrl. You can also download this handbook from the MYSound Web site at http://www.mysound.uconn.edu. Finally, you can order a copy of the handbook by contacting:
